***Please direct any and all questions to the City of St. Charles Building and Code Enforcement Division:
Monday (8 AM to 6 PM) Tuesday through Friday (8 AM to 4:30 PM) at 630.377.4406***

A building permit is required prior to any construction of a deck or gazebo. The following are guidelines and comments for obtaining a building permit.

Application and Drawings Procedures:

- ▶ An application is to be filled out and submitted to the Building & Code Enforcement Division Office. The contractors names, addresses, phone numbers and, if required, their license numbers are to be filled out when submitting the application.
- ▶ Two (2) sets of drawings showing the construction details of the deck, gazebo, or pergola are to be submitted with the application. (Please see the attached example)
- ▶ Two (2) copies of the plat of survey showing the location of the deck, gazebo, or pergola and showing the location the electric service line running into the house. A gazebo must maintain a 10-foot setback from the wall of the principal building. (Please see the attached example)
- ▶ Our goal is to complete the review of your building permit within 10 working days.

Application – Permit Fees:

- ⇒ A filing fee is to be paid at time of submission of application and plans.
A fee of **\$70.00 (to be paid at time of submittal)**
- ⇒ **Re-inspection fee.** During the construction of your project should you fail any of the required inspections there is a re-inspection charge. The fees are due prior to certificate of occupancy. The fee schedule is as follows;
 - \$65.00 per re-inspection conducted by Building & Code Enforcement Division for all types of inspections during construction (excluding finals)
 - \$85.00 per re-inspection for all residential final inspections.
- ⇒ **Temporary certificate of occupancies.** \$80.00 is due prior to issuance of a temporary certificate of occupancy for residential.

Inspections:

The following is a list of inspections, which might be required for your project and the amount of time for these inspections.

- | | |
|-------------|------------------------|
| ○ Postholes | Approximately 1/2 hour |
| ○ Frame | Approximately 1/2 hour |
| ○ Final | Approximately 1/2 hour |

Overtime Inspections:

The Building & Code Enforcement Division Manager or his designee may approve requests for overtime inspections for unique circumstances. The charge for an overtime inspection will be a separate charge and will be invoiced to the individual contractor or company who requested the overtime inspection.

Inspections - Clarification and Details:

The following are general guidelines and details on the types of inspections that might possibly be required for your project: For further clarification please call our office and speak with one of our Building Inspectors.

- Field approved plans are to be at the property and the address is to be posted.
- Decks, gazebos, or pergolas cannot be placed over electric services without prior approval from the City of St. Charles Electric Department.
- Decks, gazebos, or pergolas are not allowed to be constructed over basement escape windows.

Postholes:

- × We check for the proper location of the postholes as per the approved plans.
- × We check to ensure that the postholes are 10-inches in diameter and 42-inches in depth from the finished grade.
- × We check for proper setbacks. Decks, gazebos, or pergolas are not allowed in an easement and must be setback a minimum of 3-feet from the interior and rear lot lines. Gazebos must maintain a 10-foot setback from the wall of the principal building.

Framing:

- We check that all deck material is treated or approved for the application.
- The fasteners are required to be galvanized or stainless.
- We check to confirm that the joists are properly sized and spaced.
- We check the span of the joist.
- We check to ensure that proper flashing is at the ledger board.
- Any cantilevering of the deck cannot exceed twenty-four (24) inches.
- All posts are to be anchored at the postholes.
- Per the St. Charles specifications, all bolts are to be installed through the beams.

Final:

- ⇒ We check to make sure that the deck, gazebo, or pergola piers are above grade so that the wood is not exposed to the dirt and will not rot.
- ⇒ The stair stringers are to land on a concrete pad or pavers to prevent any rotting of the wood.
 - Stairs are to be built with the same rise or within 3/8-inch maximum difference on the complete rise run.
 - Stair width is to be no less than 36-inches.
 - Stair tread or steps are to be a minimum of 10-inches.
 - Stair rise is to be 7-3/4-inch maximum.
- ⇒ Stair handrails are required when there are two-2 or more risers.
 - The handrails are to be mounted between 32-inches to 38-inches and they will be measured vertically from the tread nose.
 - The returns at the end of the handrails are to end into the top and bottom post.
 - Handrails are to have a diameter of 1-1/4 inch to 2-5/8 inch.
 - It is required to have a 1 1/2 inch clear open gap around the handrail so that the hands can grasp the railing.

Inspections - Clarification and Details continued:

Final continued:

- ⇒ Guardrails are required when a walking surface is above 30-inches from the finished grade. Guardrail height of 36-inches minimum is required from the deck surface and must be able to withstand a weight of 200 pounds that is imposed from any direction.
- ⇒ All spindles in the stairs and guards are required to have a maximum opening of 4-inches. The triangle at the bottom between the steps and the bottom of the guardrail shall not allow a 6-inch ball to fit through the opening.
- ⇒ If electric service pass over the deck, a 10-foot clearance must be maintained to keep the electric away from all walking surfaces.

Building Codes:

The following are the Building Codes, which the City of St. Charles has adopted:

- St. Charles Municipal Code
- 2002 Nat'l Electrical Code w/revisions
- 2000 Int'l Residential Code/revisions
- Fire Prevention Codes

General Comments:

- * The Permit Conditions form and stamped "FIELD COPY" of the plans are to be on the job site.
- * A minimum of 24-hour notice is required when scheduling any inspection.
- * Postholes are to be ten-inches (10") in diameter and forty-two inches (42") in depth.
- * Wolmanized or weather treated wood is to be used.
- * Galvanized nails are to be used.
- * One half (1/2") inch lag bolts into ledger board two feet zero inch (2' 0") on center and hanger joists from ledger.
- * Guardrails are required when a floor surface is located thirty (30") inches (762 mm) above finished grade and not less than thirty-six (36") inches (914 mm) vertically from the finished floor.
- * Handrails are required on open sides of stairs when a total rise of more than thirty (30") inches (762 mm) above finished grade and measures not less than thirty-four (34") inches in height vertically from the nosing of the tread.
- * For handrail the ends shall be returned or shall terminate in newel posts or safety terminals.
- * Handrail grip size. The handgrip portion of handrails shall have a circular cross section of 1-1/4 inches (32mm) minimum to 2-5/8 inches (67 mm) maximum.
- * The riser on the steps shall be no greater than 7-3/4 inches with the greatest riser height not to exceed the smallest by more than 3/8 inch and the tread to be no less than ten (10") inches.
- * Deck beam shall be done as indicated in diagram A or B, which are located in the Informational Deck Packet.
- * Balusters or pickets shall be placed with a four (4") inch maximum opening between.
- * Per the National Electrical Code no deck shall be placed over the electric service coming into the house. The deck, gazebo, or pergolas are not to be over the meters.
- * Decks, gazebos, or pergolas are not allowed in an easement and must be setback a minimum of 3-feet from the interior and rear lot lines.
- * Gazebos must maintain a 10-foot setback from the wall of the principal building.
- * **The postholes are to be inspected prior to anything being filled into the postholes.**
- * **The framing is to be inspected prior to decking material being installed.**
- * **The final is to be inspected after completion of the deck.**

Homeowner – Contractor Responsibilities:

- ✓ It is the responsibility of the homeowner/contractor to schedule with the Building Department the required inspections. The required inspections are indicated on the Plan Review form, which is attached to your permit and the Field Copy of drawings. When calling to schedule an inspection, please have the address and the permit number.
- ✓ Inspections shall be called a minimum of 24 hours before they become due.
- ✓ Call J.U.L.I.E. (Joint Underground Location for Inspectors and Engineers) at least 48-hours prior to any digging to locate any underground utilities. **(1-800/892-0123)**
 - Electric Utilities Red
 - Comcast (Cable) Orange
 - Northern Illinois Gas (NICOR) Yellow
 - Sewer Utilities Green
 - Telephone Utilities Orange
 - Water Utilities Blue
